

OncoSec Announces Third Quarter and YTD Results for Fiscal Year 2017

SAN DIEGO, June 1, 2017 /PRNewswire/ -- OncoSec Medical Incorporated ("OncoSec") (NASDAQ: ONCS), a company developing DNA-based intratumoral cancer immunotherapies, today announced third quarter and year-to-date financial results ended April 30, 2017.

"We have made significant progress this past quarter in advancing our clinical and regulatory pathway for ImmunoPulse[®] IL-12, which we believe can provide a meaningful clinical benefit to patients with limited or no treatment options," said Punit Dhillon, President and CEO of OncoSec. "With a clinical collaboration and drug supply agreement for pembrolizumab and FDA Fast Track designation in hand, we are working diligently on the site start-up and initiation activities related to our registration-directed study, which we call PISCES. By pursuing an accelerated pathway, this puts us in a favorable position to secure the first approval in the anti-PD-1 non-responder patient population in advanced melanoma."

Third Quarter and YTD 2017 Financial Results

- For the third quarter of fiscal 2017 and the nine months ended April 30, 2017, OncoSec reported a net loss of \$4.6 million and \$15.6 million, or \$0.22 per share and \$0.79 per share, respectively, compared to a net loss of \$6.3 million and \$20.3 million, or \$0.37 per share and \$1.27 per share, respectively, for the same periods last year.
- The decrease in net loss for the third quarter ended April 30, 2017, compared with the same period in 2016, resulted primarily from: (i) a decrease in research and development expenses, mainly \$0.7 million related to clinical trial costs due to a lower number of patient enrollments in a smaller number of actively enrolling trials, as well as lower trial management costs; and, (ii) a decrease of \$0.9 million in stock compensation expense, mainly related to a reduction in the value of equity compensation awards.
- The decrease in net loss for the nine months ended April 30, 2017, compared with the same period in 2016, resulted primarily from: (i) a decrease in research and development expenses, mainly \$2.1 million related to clinical trial costs and outside services due to a lower number of patient enrollments in a smaller number of actively enrolling trials, as well as lower trial management costs, and lower salary costs of \$0.7 million; and, (ii) a decrease of \$1.5 million in stock compensation expense.
- There were no revenues for the three and nine months ended April 30, 2017 or April 30, 2016.
- Research and development expenses were \$2.7 million and \$8.6 million for the third quarter of fiscal 2017 and the nine months ended April 30, 2017, respectively, compared to \$3.4 million and \$11.1 million for the same periods in 2016.
- General and administrative expenses were \$1.9 million and \$6.9 million for the third quarter of fiscal 2017 and the nine months ended April 30, 2017, compared to \$2.9 million and \$9.2 million for the same period in 2016.

 At April 30, 2017, OncoSec had \$16.1 million in cash and cash equivalents, as compared to \$28.7 million of cash and cash equivalents at July 31, 2016. OncoSec, based on its current rate of cash consumption, estimates it will need additional capital in the first calendar quarter of 2018 to continue to operate its business.

Third Quarter 2017 and Recent Highlights

ImmunoPulse® IL-12 Progress

- Presented positive topline results from the primary analysis of the Phase II combination trial of ImmunoPulse[®] IL-12 and pembrolizumab in melanoma patients that were predicted to be non-responders to anti-PD-1 at the 2017 ASCO-SITC Clinical Immuno-Oncology Symposium. Data showed an objective response of 43% and a best overall response rate (ORR) of 48% at 24 weeks; ORR of 33% in patients with prior checkpoint therapy;
- Granted FDA Fast Track designation for ImmunoPulse[®] IL-12 for the treatment of metastatic melanoma following progression on pembrolizumab or nivolumab;
- Completed clinical trial collaboration and supply agreement for pembrolizumab for the Phase II registration-directed trial, referred to as PISCES; and,
- Granted international nonproprietary name (INN) for pIL-12- "tavokinogene telseplasmid."

Strategic Collaborations

• Initiated a Technology Access Program collaborations with Inhibrx and another undisclosed company.

R&D and Pipeline Expansion

- Presented positive preclinical data demonstrating the latest developments of the Company's gene delivery platform in a murine melanoma model at the American Association of Cancer Research (AACR) Annual Meeting;
- Presented intratumoral electroporation-mediated IL-12 gene therapy data showing enhanced tumor immunogenicity at the Keystone Symposia conference;
- Continued development of novel multi-gene constructs and advancing new preclinical candidates that target multiple cancer immune regulating mechanisms in solid tumors; and,
- Advanced tumor targeted delivery technologies focused on treating visceral tumor applications.

2017 Development Milestones

- PISCES a Phase II study of ImmunoPulse[®] IL-12 in combination with anti-PD-1 in melanoma patients that progress on anti-PD-1 therapies, will be open for enrollment in June 2017;
- Availability of top-line data for PISCES targeted for fourth guarter of 2017;
- Patients predicted to be non-responders treated with the combination with tavokinogene telseplasmid and pembrolizumab;
- Assess long-term follow-up data from first cohort of patients (n=22) enrolled in Phase II

- Investigator Sponsored Trial assessing combination of ImmunoPulse[®] IL-12 and pembrolizumab in melanoma patients; and,
- Establish key collaborations and expand the use of our technology through the technology access program using our novel Tissue Responsive Adaptive Controlled Electroporation (TRACE) enabled delivery technology.

About OncoSec Medical Incorporated

OncoSec is a biotechnology company developing DNA-based intratumoral immunotherapies with an investigational technology, ImmunoPulse[®], for the treatment of cancer. ImmunoPulse[®] is designed to enhance the local delivery and uptake of DNA-based immune-targeting agents, such as IL-12. In Phase I and II clinical trials, ImmunoPulse[®] IL-12 has demonstrated a favorable safety profile and evidence of anti-tumor activity in the treatment of various solid tumors as well as a systemic immune response. OncoSec's lead program, ImmunoPulse[®] IL-12, is currently in clinical development for several indications, including metastatic melanoma and triple-negative breast cancer. The program's current focus is on the significant unmet medical need in patients with melanoma who are refractory or non-responsive to anti-PD-1/PD-L1 therapies. In addition to ImmunoPulse[®] IL-12, the Company is also identifying and developing new immune-targeting agents for use with the ImmunoPulse[®] platform. For more information, please visit www.oncosec.com.

Cautionary Note Regarding Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "objective," "expect," and similar references to future periods.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based on management's current preliminary expectations and are subject to risks and uncertainties, which may cause our results to differ materially and adversely from the statements contained herein. Potential risks and uncertainties that could cause actual results to differ from those predicted include, among others, the following: uncertainties inherent in pre-clinical studies and clinical trials, such as the ability to enroll patients in clinical trials and the risk of adverse events; unexpected new data, safety and technical issues; our ability to raise additional funding necessary to fund continued operations; and the other factors discussed in OncoSec's filings with the Securities and Exchange Commission.

Undue reliance should not be placed on forward-looking statements, which speak only as of the date they are made. OncoSec disclaims any obligation to update any forward-looking statements to reflect new information, events or circumstances after the date they are made, or to reflect the occurrence of unanticipated events.
